## PROFESSIONAL SUMMARY

Full-stack developer with experience in corporate and hospital IT support. I develop web applications, APIs and automations with React, Next.js and Python, from interfaces to business logic and integrations. My background includes support workflows and internal IT tools.

## PROFESSIONAL EXPERIENCE

### Grupo Assim Saúde | IT Support Technician

July 2026 to present

On-site and remote hospital IT support, GLPI ticket handling and equipment preparation. Access administration with Active Directory and Microsoft 365; network and hospital system support, with infrastructure monitoring through Zabbix.

### Alverse Technologies | Full-stack Developer

June 2025 to present

Development and maintenance of web applications with React, Next.js, Python and PostgreSQL/Supabase. Implementation of APIs, authentication, admin dashboards and webhook integrations, including solution deployment and maintenance.

### Prosper Distribuidora | IT Support Analyst

November 2024 to April 2026

Tier 1 and Tier 2 support, access administration and support for Target and Target Mob systems. Development of internal tools for visit route planning and invoice XML selection, connecting operational workflows to Python and React solutions.

## SELECTED PROJECTS

**Fortão Prêmios:** full development with Next.js and Supabase, including an admin dashboard, payment integration, NFS-e invoice issuance and prize draw result processing.

**IT Support Tickets:** local React, FastAPI and PostgreSQL application for ticket creation, tracking and history, with access roles and equipment inventory.

**Roteiro Prosper and XML Processor:** route planning with nearest-neighbor and 2-opt algorithms; invoice document selection using an Excel spreadsheet and ZIP archive.

## TECHNICAL SKILLS

**Development:** JavaScript, TypeScript, React, Next.js, HTML, CSS, Python, FastAPI, Flask, REST APIs and webhooks.

**Data and tools:** PostgreSQL, Supabase, Redis, Git and n8n.

**IT support:** Active Directory, Microsoft 365, GLPI, Zabbix, Tier 1 and Tier 2 support.

## EDUCATION AND LANGUAGES

DevClub Fullstack Pro | Full-stack Bootcamp | 2025 to 2026, nearing completion

Brasil Petro | Technical training in IT and Computer Maintenance | 2014 to 2015

Portuguese: native | English: basic technical reading skills.
